

TALK SPELLING REFORM.

Business Men's Association Enjoy Chicken Pie Supper. New Officers Elected. Live Topics to be Discussed.

At the regular monthly meeting of the Stevens Point Business Men's Association, held Thursday evening at Odd Fellows hall, the following list of officers were elected for the ensuing year:

President, D. E. Frost. Vice President, H. H. Pagel. Second Vice Pres., F. A. Southwick. Secretary, E. W. Sellers. Treasurer, R. B. Johnson.

The first part of the evening was spent in the enjoyment of an excellent chicken pie supper, prepared by Mrs. Alice Eaton and served by the Misses Ellida Moon, Jessie Burke, Vera Eaton, Claudina Hungenberg, Anna Clark and Katherine Langenberg. After the menu had been completed and cigars were lighted, Secretary G. L. Park moved that George B. Nelson preside during the absence of the president and the vice-president, and the motion was carried.

A report of Treasurer R. B. Johnson showed that the total receipts during 1906 amounted to \$156, of which \$116 was for annual dues from members. Of this sum, \$151.14 was paid out for various expenses, leaving a surplus of \$4.86 on hand. The treasurer was instructed to collect the annual dues of \$1 from the members, and most of those present paid up.

A motion made by Prof. G. A. Talbert that the entertainment committee prepare some regular set program for each meeting, was carried. It was suggested that a topic of current interest and importance be assigned for discussion to four members. The topic is to be announced in each official notice of the meetings, thus permitting preparation for a general discussion. The list of officers named above were then elected, the officers also to serve as a board of directors.

The balance of the evening was devoted to the discussion of various matters by several of the members. A. R. Week introduced the spelling reform problem, his attention being called to it by a communication from the Simplified Spelling board, Madison avenue, New York. In this connection Mr. Week read Mr. Dooley's recent article on the revised spelling. A good story along the same line was told by H. J. Finch, and Prof. Showers stated that he was not prepared to voice his opinions, there being much to be said on both sides.

Was Made Chairman.

Prof. F. F. Showers of this city has been appointed chairman of the executive committee of the Private Commercial School Managers' Association, by its president, Enos Spencer, of Louisville, Ky. The duties of the committee is to arrange programs for the summer conventions, which are to be held at Philadelphia and Atlantic City, and for one in January at Pittsburgh. As his associates on the committee Prof. Showers has L. E. Stacey, of Meadville, Pa., and D. D. Mueller, of Cincinnati.

Better Heating Needed.

Supt. J. N. Davis and his stenographer, Miss Susie Smith, have been obliged to work in the janitor's quarters at the High school during the past few days, when extreme cold weather prevailed, the change being due to the fact that enough heat cannot be generated from the furnaces to heat the entire building. As many as 140 tons of coal and about 8 cords of wood are consumed annually at the High school in the effort to heat the building. The installation of a new heating plant seems necessary.

Tom Likes Nebraska.

T. F. McAlahey, former local manager for the Wisconsin Telephone company, is now nicely located at 610 N. 18th street, Omaha, Neb., where he is employed by the Nebraska Bell Telephone company, and expects to have charge of a district within a couple of months. He expected to locate at Kearney, a city of about 8,000 inhabitants, but did not like the proposition, the plant there being owned by an independent company of three stockholders. The towns of Nebraska that he has visited, he says, are up-to-date; the people hang together and boost all the time, instead of knocking or being divided in any way.

Interest on Bonds Due.

County Treasurer Dake has been paying interest during the past few days on the county's railroad indebtedness of \$100,000, as the coupons have been presented, and the total amount due as interest on the same is \$5,000. The greater part of the coupons come from Boston, Chicago and New York and are handled by the local banks. The coupons on two bonds of \$1,000 each have not been received for payment for the past four years, these apparently being neglected in some way by the owners. Should they be forgotten during the next five years, the county will be ahead the \$2,000, together with the interest due, or \$2,900.

Wood Wanted.

Sealed bids will be received until five o'clock p. m., January 19, 1907, for furnishing the city with fifty cords of four foot slab wood, delivered at the stone crusher in this city, and for one hundred cords of four foot green, mixed hardwood, elm excluded, to be delivered at engine house No. 1. Bids for hardwood to state whether ends will be chopped or sawed, and must specify different kinds of wood they propose to deliver.

City reserves the right to reject any and all bids.

H. J. Finch, City Clerk.

VALUABLE MILK PRODUCTS

Figures Furnished by State University Experimental Department Show Well Developed Industry.

Co-operating with the state dairy and food commission, the agricultural experiment department of the State University has distributed with its regular monthly bulletin a chart map showing the number of plants manufacturing milk products in the state, namely cheese factories, creameries, skimming stations and condenseries. The following interesting figures are given: Cheese factories, 1,649; creameries, 1,017; combined creamery and cheese factories, 40; skimming stations, 260; condenseries, 3. The largest number of cheese factories are found in Green county, in the southern part of the state, and especially in the northwest portions of that county. Many similar factories have been established in the southwestern part of the state, and a large number are also distributed among the counties lining the eastern boundary of the state, from Green Bay to Waukesha. The greatest number of creameries are to be found in the southeastern part of the state. Portage county now has 26 creameries, well scattered about the county. The total valuation of the products manufactured at all the plants during 1906 is estimated at \$45,941,048. The amount of butter made is 123,025,765 pounds, including 34,620,368 pounds which are made on the farms and 88,405,397 pounds at the creameries. The valuation on butter produced is placed at \$25,762,258. The figures showing the amount of cheese manufactured reads 111,884,940 pounds, of which 1,974,830 pounds are made by housewives and 109,910,112 pounds in the factories. The amount of milk directly consumed in the making of these products amounted during the past year to 100,418,000 pounds.

John Ennor, The Philosopher.

From a paper published at Francesville, Ind., the following is taken and will be appreciated by acquaintances and friends of Mr. Ennor, who is giving nightly entertainments in that part of the country:

John Ennor is an oddity; his life reads like a romance of two worlds and from the tale of his secluded life to study nature, is the feature article of the leading magazines. For thirty years he has been a philosopher, isolated from society's glittering and evanescent whirl and the activity of an actual business life. After twenty years on wheels in his palace car as a scenic artist for the railroads, he comes forth and shows in a course of entertainments, those graphic spots of the universe that would require a lifetime to travel. John Ennor is well renowned as the world's greatest travelogueur and his entertainments are of the highest standard of educational and moral perfection that pose before the footlights of our theatre today. These entertainments are given nightly in sections of about ten thousand miles, and those who do not, but can travel should not miss the opportunity of having the world brought to them by this man, who has spent so many years of hard labor and toil by bringing you back for a moment by spending a pleasant evening with the lights and shadows of life. Back to Nature, the grandest of it all.

CINCINNATI PEOPLE EXCITED

The Great Cooper, as he is Called, Has Stirred Up That City to a Remarkable Degree.

Cincinnati, O., Jan. 15. This city is at present in the midst of an excitement beyond anything that it experienced in recent years.

Old and young, rich and poor, all seem to have become beside themselves over an individual who was a stranger to Cincinnati up to two weeks ago.

The man who has created all this turmoil is L. T. Cooper, President of the Cooper Medicine Co., of Dayton, Ohio, who is at present introducing his preparations in this city for the first time.

Cooper is a man about thirty years of age and has acquired a fortune within the past two years by the sale of some preparations of which he is the owner.

Reports from eastern cities that preceded the young man here were of the most startling nature. Many of the leading dailies going so far as to state that he had nightly cured in public places deafness of years' standing with one of his preparations. The physicians of the east contradicted this statement, claiming the thing to be impossible, but the facts seemed to bear out this statement that Cooper actually did so.

In consequence people flocked to him by thousands and his preparations sold like wildfire.

Many of these stories were regarded as fictitious in Cincinnati and until Cooper actually reached this city little attention was paid to them. Hardly had the young man arrived, however, when he began giving demonstrations,

as he calls them, in public, and daily met people afflicted with deafness and with a single application of one of his preparations actually made deaf people hear again.

In addition to this work Cooper advanced the theory that stomach trouble is the foundation of nine out of ten diseases and claimed to have a preparation that would restore the stomach to working order and thus get rid of such troubles as rheumatism and affections of the kidneys and liver, in about two weeks time.

This statement seems to have been borne out by the remarkable results obtained through the use of his preparation, and now all Cincinnati is apparently mad over the young man.

His headquarters resemble a veritable stampede. Thousands of people are visiting him each day, and the druggists are selling his medicines in enormous quantities.

What seems to make Cooper still more popular is the fact that he practices extensive charitable work and already has dispensed a small fortune among the poor of the city.

How long the tremendous interest in Cooper will last is hard to estimate. At present there seems to be no sign of a let-up. Reputable physicians claim it to be a fad that will die out as soon as Cooper leaves.

In justice to him, however, it must be said that he seems to have accomplished a great deal for the sick of this city with his preparations.

The Farmer's Wife

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distressing stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The best agents known to medical science for the cure of the above symptoms and conditions, as attested by the writings of leading teachers and medical journals, have been skillfully and harmoniously combined in Dr. Pierce's Golden Medical Discovery. That this is absolutely true will be readily proven to your satisfaction if you will mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of his booklet of extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.

Wise Counsel From the South

"I want to give some valuable advice to those who suffer with lame back and kidney trouble," says J. R. Blankenship, of Beck, Tenn. "I have proved to an absolute certainty that Electric Bitters will positively cure this distressing condition. The first bottle gave me great relief and after taking a few more bottles, I was completely cured; so completely that it becomes a pleasure to recommend this great remedy." Sold under guarantee at H. MID-WINTER STYLES.

Evening Dresses, Ribbon Trimmings, Scarfs for Evening, Fur, Ruffs, Mink Toques, Etc.

There is positive economy in the prevalent use of sheer materials for evening wear, as they will (if well made) be fashionable next summer, provided no radical changes take place. Then too, many thin fabrics are so reasonable in price, commencing at 50 cents, although a really good quality net is \$1.00 per yard. Brussels net is a good investment, either white, black or colored, the skirt trimmed with ruffles of the same, put on in points or scallops, the waist round and full, with or without a bertha. Satin ribbon in graduated widths is a simple and inexpensive trimming.

Ribbons are used to an unlimited extent made into imitation roses, violets and other flowers, usually with hanging ends when used on a bertha or over the shoulders of an evening dress. They are also a valuable aid in concealing fancy jumper waists, bretelles, or Etons, and not unfrequently entire gowns are of lace and ribbon. Some writers call the jumper an "over-blouse," which is to some extent correct as it requires two waists to make up the jumper. Beyond a doubt, this will be the leading style for spring, therefore time and material now expended will not be thrown away.

Fancy work was never more productive of artistic results. Embroidery, braiding, chainstitching or applique work are all represented on scarfs for evening wear, either at parties, the theatre or home wear. They are of chiffon, lace or Brussels net, sometimes with a combination of very fine drawn work. Any skillful needlewoman can make a handsome one at home with comparatively little expense. They should be about three yards long, and eighteen inches wide. Fancy white silk braid, put on in a pattern on Brussels net, makes a very pretty scarf.

Braiding in gilt on chiffon is easily done or chiffon appliques in exquisite colorings may be had by the yard, and taken apart, and tastefully grouped at the end of a chiffon scarf is the "top notch" of style. Real lace is of course first choice, but those are beyond the means of most women. Ruffs of lace, maline, or malinette are an attractive substitute for the genuine article, and plaited silk edged by fur (with lace beneath) is also in vogue.

Fur is now so generally worn that no woman feels that her dress is complete without a handsome set or at least some fur trimming. Sable makes a handsome edge, chinchilla sets off gowns of neutral tint, and broadtail, braided with soutache and gold threads, is an elegant garniture for velvet gowns. Fur toques, with a single, large rose, are very stylish, just now, furs are an interesting question, not only from the severity of the winter.

The above design is by the McCall Co. of New York, fashion publishers and manufacturers of McCall patterns. The rage for low-necked dresses, naturally brings the necklace into especial prominence. Besides the dog-collar, which is an essential to those no longer young, beautiful necklaces are a net of gold wires, with pendants of variously colored stones, several different ones being put together. A particularly fine necklace had a precious stone at each intersection of the wires. Verona Clarke.

CITY GOVERNMENT.

Official Synopsis of Proceedings of the Common Council.

Council Chamber, Stevens Point, August 7, 1907. Regular meeting of the common council, held in the council chambers, Tuesday evening, Aug. 7, Mayor Hanna presiding. Members present: Atwell, Ash, Cassidy, Eddy, Geo. Langowsky, Lutz, Patterson, Piffner, Polebitski and Thoms. Absent: Neseman.

The minutes of the previous meeting were read and approved.

The residents and property owners on Strong's avenue between Brawley and Shaurette streets presented a petition, asking that a cement curb and gutter be laid on said avenue between points named and their prayer was granted.

The resolution providing for the payment of the monthly schedule of claims, together with the report of the finance committee, was adopted by a unanimous vote.

A resolution providing for the vacating Hemlock street between Shaurette street and Park avenue, was adopted by the following vote: Atwell, Cassidy, Eddy, Langowsky, Lutz, Patterson and Thoms, voting aye, and Ash, Geo. Polebitski and Piffner [4], voting nay.

Upon motion of Ald. Ash, the clerk was directed to cause the sum of five dollars in favor of C. M. Lefschitz in payment for two business licenses which were issued to the said Lefschitz on the 4th day of July, 1906, and which were not used because of a misunderstanding. All members present voted aye.

The resignation of Mrs. J. W. Glennon from the library board was accepted and ordered placed on file as a resignation. Mrs. Glennon, N. A. Week to fill the vacancy for the unexpired term and this appointment was confirmed by the council.

Ald. Langowsky wanted to know why the board of streets had not made such repairs of streets across the town as the council had directed some months ago? Ald. Patterson said that the board of public works had been busy on the board of streets and requested that the council empower the board to make arrangements for having these streets properly sprinkled with water. Ald. Eddy moved that the board of public works be authorized to secure the necessary apparatus to sprinkle the new streets. No action was taken.

Upon motion of Ald. Atwell, the board of public works was directed to procure enough rock at a price not to exceed four (4) dollars per cord, and at once repair all improved streets that were in need of such repairs. This motion prevailed by a unanimous vote.

Upon motion of Ald. Piffner, the board of public works was directed to prepare plans and specifications for a cement curb and gutter on Strong's avenue from Brawley street to Division.

Upon request of Ald. Atwell, the poor committee was authorized to distribute the wood piled at engine house No. 1 as they saw fit and the clerk was directed to advertise for bids for fifty cords of sixteen inch mill wood to be delivered as ordered by the poor committee.

Ald. Langowsky reported that M. Scharwark and wife were in a destitute condition and should be cared for. Ald. Atwell promised to make an investigation the following day.

Mr. Sprychalski, one of the city paupers, appeared before the council and asked that he be reimbursed the amount of \$2, which he paid out for moving his landlady having notified him to at once vacate her property. Upon motion of Ald. Polebitski the clerk was directed to issue an order to the treasurer for the sum of two dollars in favor of S. Sprychalski in payment of this claim.

The clerk informed the council that the library board had in its office a copy of a resolution which had been adopted by said board and that said resolution authorized the city to build a cement walk on the Clark street and Strong's avenue side of the library building.

Ald. Polebitski reported that the public square was in a very unsanitary condition and upon his motion it was decided to have the gutters cleaned twice a week.

Mayor Hanna reported that a Mr. S. Docka, through his attorneys, Messrs. Dahl & Nelson, had filed notice and was going to serve an injunction upon the city and stop the running of the stone crusher. With two streets half finished he had, after consulting with the board of public works, agreed to pay them \$25.00, rather than have the work stopped. Upon motion of Ald. Cassidy the clerk was directed to draw an order upon the treasurer for the sum of \$25, in favor of Mr. Docka for this claim. All members present voted aye.

Ald. Patterson informed the council that some of the firemen were complaining that under the present system they were unable to take their monthly vacation. No action taken.

Ald. Atwell wanted to know if the highway committee had reported upon the matter of improving North bird street. Ald. Polebitski said he had previously made a report upon this proposed improvement and he had been unable to get Mr. Piffner to go with him to make a personal investigation. Ald. Piffner said that he was unable to go when Ald. Polebitski asked him but that later he had made a personal investigation and that he had talked with several property owners and they were all against the proposed improvement.

No further business appearing the council adjourned.

Cured of Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes A. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both day and night. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds." Thousands of persons are healed every year. Guaranteed at H. D. McCulloch Co.'s. 50c and \$1. Trial bottle free.

If LaFollette and Fairbanks should get up a combination it might equalize the temperature—a sort of compromise between Nome and the Panama strip.

The Right Name.

Mr. August Sherpe, the popular overseer of the poor, at Fort Madison, Ia., says: "Dr. King's New Life Pills are rightly named; they act more agreeably, do more good and make one feel better than any other laxative." Guaranteed to cure biliousness and constipation. 25 cents at H. D. McCulloch Co.'s.

Croup can positively be stopped in 20 minutes. No vomiting—nothing to sicken or distress your child. A sweet, pleasant and safe syrup, called Dr. Shoop's Croup Cure does the work and does it quickly. Dr. Shoop's Croup Cure is for croup alone, remember. It does not claim to cure a dozen ailments. It's for croup, that's all. Sold by all dealers.

Harry New, the new Republican chairman, says Indiana is solid for Fairbanks for president. But no other northern state will take to that sort of frappe.

Piles get quick relief from Dr. Shoop's Magic Ointment. Remember it's made alone for piles—and it works with certainty and satisfaction. Itching, painful, protruding or blind piles disappear like magic by its use. Try it and see! All dealers.

The Wisconsin Teachers' association passed a resolution in favor of deformed spelling, which means that a few were interested in promoting the change, while the great majority didn't care.

Cut this out and take it to H. D. McCulloch Co.'s drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. These tablets are far superior to pills, being easier to take and more pleasant in effect. They correct disorders of the stomach, liver and bowels.

An exchange tells of a Kansas man who is a doctor, a minister, an undertaker and a tombstone dealer all combined. And nobody has ever hinted at his being a combination in restraint of trade.

Quick Wit Saved His Life.

"The strangest and most thrilling piece of swordsmanship I ever saw," said the fencing master, "was in Vermont. I was spending the autumn in a mountainous part of the state, and there was a military encampment near my hotel. One morning an officer's horse started to bolt with the man during parade and made at breakneck speed toward a precipice. The officer tried to stop the horse, tried to turn his head—no use. On dashed the frantic animal straight for the abyss. We all held our breaths. In another instant we expected to see horse and rider go over the cliff. But the officer when within fifty feet of the edge drew his sword and plunged it twice deep into the horse. The horse staggered, slowed, keeled over, dying. The man had sacrificed the animal's life to save his own."

Ages in the Animal Kingdom.

A great variance as to length of life appears among different animals. Some insects live for only a few hours, while fish, elephants and turtles are frequently centenarians. The average life of the mosquito is three days. Toads usually live to the age of about fifteen years, while carp have been known to reach 150. Chickens live from twelve to fifteen years, dogs to the age of ten and occasionally fifteen and parrots to extreme age. These birds have been known to pass the age of 200 years. Turtles are also frequently centenarians, as are storks, and elephants are said to reach the age of 300 years. Whales have been known to live for 400 years.

Postage Stamps.

The largest postage stamp ever issued was a five cent stamp of the United States intended for newspaper postage. It was 4 by 2 inches in size. The smallest postage stamp, on the other hand, was a twenty-five pfennig stamp of Mecklenburg-Schwerin, issued in 1856. It was one-fourth the size of an ordinary postage stamp. Incidentally it has been calculated that about 13,000 different kinds of postage stamps have been issued by the various countries of the earth.

Fate.

A strange comedy and tragedy was woven into the lives of Ibsen and Bjornson. As young men they were great friends; then politics flung them apart; they quarreled and never met for years and years. Strange fate brought the children of these two great writers together, and Bjornson's daughter married Ibsen's only child. The fathers met after a quarter of a century of separation at the wedding of their children.

The Regular Charge.

"I've come to pay my bill," said the patient; "\$120, I believe?" "Yes," replied Dr. Soakem, "making a total of \$122."

"Er—I don't quite understand."

"That brings it up to date, including today. I charge \$2 for office visits, you know."—Philadelphia Ledger.

Mixed Metaphor.

Mr. Spurgeon was a keen collector of mixed metaphors, finding a rich field in the correspondence that daily overwhelmed him. Two or three are given in the Cornhill. A lady inclosing a small contribution for his schools wrote, "I hope this widow's mite may take root and spread its branches until it becomes a Hercules in your hands." The pulpit prayers of ambitious probationers added something to the great preacher's store. One prayed that "God's rod and staff may be ours while tossed on the sea of life, so that we may fight the good fight of faith and in the end soar to rest." Still another prayed, "Gird up the loins of our minds, that we may receive the latter rain." "As if we were barrels whose hoops were loose," was Mr. Spurgeon's laughing comment.—St. James' Gazette.

Bustling Mme. de Stael.

In my last letter I mentioned going to visit Mme. de Stael. She was just going out as I got to the door, and but for Mr. Rogers, who was coming out as I went in, I should not have gained admittance. There were many persons with her, and she was running about and talking as fast as possible. Her dress and manners are very extraordinary. The news of Lord Wellington's victory had just arrived, and she descended upon it with much animation. I cannot better describe to you the bustle she makes than by saying that, leaving her, the streets of London seemed solitary, for as to noise and hurry and rapidity in the succession of events there is as much difference between her room and them as between them and the park at Bulstrode.—London Athenaeum.

The Peacock at Home.

The real home of peacocks or peafowls is in India. There they were and are hunted, and their flesh is used for food. As the birds live in the same region as the tiger, peacock hunting is a very dangerous sport. The long train of the peacock is not its tail, as many suppose, but is composed of feathers which grow out just above the tail and are called the tail coverts. Peacocks have been known for many hundred years. They are mentioned in the Bible. Job mentions them, and they are mentioned, too, in I Kings x. Hundreds of years ago in Rome many thousand peacocks were killed for the great feasts which the emperors made. The brains of the peacock were considered a great treat, and many had to be killed for a single feast.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for every thing but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Dangers of a Cold, How to Avoid Them.

More fatalities have their origin in or result from a cold than any other cause. This fact alone should make people more careful as there is no danger whatever from a cold when it is properly treated in the beginning. For many years Chamberlain's Cough Remedy has been recognized as the most prompt and effectual medicine in use for this disease. It acts on nature's plan, loosens the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Sold by H. D. McCulloch Co.

Eggs in the '70s sold for 10 cents a dozen, says a St. Louis paper. Probably some of the same vintage are still selling, but the prices have advanced.

Business and Real Estate Property.

"White Eagles" Have Organized.
A new social married peoples' club was organized at the home of J. Kamionka, Sunday evening, the same to be known as the "White Eagles," or by the more pretty and dignified title of "Biolo Ori." The translation of the name into the English takes way considerable of its "poetic beauty." The purpose of the club is more important and that is to "enjoy a good time" at the least plausible excuse. That the destiny of the name, as well as the requirements of the by-laws, will be thoroughly fulfilled is evident from the list of officers, who will have charge of their own and the affairs of twenty-two other members. They are: President, Mrs. J. D. Langosky; vice president, Frank Boyer; secretary, Joseph Worzella; treasurer, A. J. Kamionka. Each of the charter couples will bring another couple into membership, making it twenty-six couples or fifty-two people. The first event was a dance given at Eintrachts Hall, Tuesday evening. A fine time was spent.

Exploding Lamp Causes Trouble.
The exploding of a small lamp at the home of the Misses Kropoloske, 542 Main street, caused much excitement and considerable loss, at 7 o'clock Sunday evening. The home is occupied by several roomers, among them being H. G. Martin, of the business college. He was in his room on the second floor at the time, and was startled to see the lamp flame up suddenly and explode almost at the same instant, throwing the blazing oil about the room. Owing to the window being frozen, he was compelled to resort to some other means of getting rid of the troublesome lamp, and accordingly made an effort to reach the front door, on the first floor, but the fire from the burning oil had spread so rapidly that he was obliged to turn his attention to an endeavor to smother the flames with bed clothing. Some of the oil had escaped through a crevice between the floor and the steam radiator pipe, thus igniting the flooring and lath. With the assistance of Messrs. Silvernale and Greenwood, Mr. Martin finally put out the fire before the arrival of the fire department, which had been called during the excitement, and the woodwork in the parlor downstairs and also in the room where the fire started was marred and damaged. The loss is fully covered by insurance.

Normal Notes.
Pres. John F. Sims accompanied the basketball team to Marshfield, last Friday, and gave a short talk on his trip during morning exercises Monday morning.

Prof. F. S. Hyer conducted a teachers' meeting at Hancock, Saturday. Wednesday of this week he will visit schools in Columbia county, while on Thursday and Friday he will act in the capacity of institute conductor at Plainfield.
Pioneer Gets One Year.
Sheriff Guyant and District Attorney Nelson spent Monday at Grand Rapids, whence they had accompanied Frank Pionek, who plead guilty to having attacked Thomas Lepinski with a knife in an alley, on the public square, Dec. 24. The young man appeared before Judge Webb and received sentence for the deed, a year in the reformatory at Green Bay. John Pionek, the father of the unfortunate, and August Frank, a friend of the family, accompanied the parties mentioned. Lepinski has been discharged from the hospital.
Must Have Local License.
The new national pure food law which went into effect on the 1st inst., will prove a blessing in many ways besides stopping the adulteration of articles that are eaten and drunk by the masses. Jobbers and others have made a business of sending representatives through the country to solicit orders from families and private individuals for wines and liquors in any quantity they desire, from a quart to a case, delivering and collecting for the same later. We are credibly informed that to conduct this line of business hereafter, it will be necessary to take out a local license in any city, village or township in which such soliciting is carried on. It will be well for local officers, whether in the town or county, to remember this hereafter and act accordingly—and promptly.

It's Time for a Tonic
When your heart beats slowly, and your blood is not coursing through the arteries at its regular gait, your doctor prescribes a little tonic, or perhaps a stimulant.
Just now the "slow heart beats" are evident in our business—they always are at this time of the year. Trade is not coming in as great quantities as it was a month ago. So our store has prescribed a stimulant. We know of nothing that will stimulate business so much as low prices, and here they are.
Women's Fur Jackets, Scarfs, Muffs and Child's Sets, and Misses' and Children's Cloth Coats have been marked to a low price—and the winter is just beginning, so you can get a lot of wear out of them. Ladies' Skirts are also included.
For Now and Until Feb. 16
we have reduced prices on our Shoes and Clothing. Our stock is a little larger than we would like to have it at this time of the year. We have a large line of men's, women's, boys', misses' and children's Shoes, which we want to close before the spring goods will arrive. Prices are:
\$5.00 Shoes at \$4.00 2 \$2.50 Shoes at \$2.00 3 \$1.00 Shoes at 80c
4.00 " 3.25 2.00 " 1.70 85c " 70c
3.50 " 2.80 1.75 " 1.50 75c " 60c
3.00 " 2.40 1.50 " 1.25 50c " 42c
.1.25 " 1.00
And the older stock has been reduced still more. Come and save money.
Felt Shoes are included in this sale.
Men's, Boys' and Children's Overcoats and Suits—also Men's Fur Coats—have had the "knife put into them," so as to clean up before spring. We can save you money on Clothing.
\$18.00 Overcoats at \$14.00 \$10.00 Overcoats at \$8.00
16.00 " 12.50 8.50 " 6.50
15.00 " 12.00 5.00 " 4.00
12.50 " 10.00 3.50 " 2.75
Suits are marked accordingly, and on some of the stock we have cut prices still lower. Come and see what we can do for you in price. Men's and boys' Pants and Caps are in line with the rest of the goods.
Men's and boys' Lumbermen's Overshoes and Heavy Rubbers for socks have also been lowered in price. Don't freeze your feet when you can get them cheap.
Flannellettes for ladies' dresses and waists have been reduced; we have a good assortment to show. We have gone over our Dress Goods stock and find that we have quite a number of Remnants, so we have put a low price on them. In some there is enough for ladies' waists and children's dresses.

Pale, Weak, Anaemic Girls.

ANEMIA or bloodlessness is indicated by paleness of the lips, the gums and eyelids, and is most frequently found in girls and young women.

Other symptoms are deficient appetite, impaired digestion, irritable temper, shortness of breath, dizziness, fainting, head aches, easily fatigued, depression and nervousness.

The blood is lacking in the life-sustaining power which is necessary to the proper working of the bodily organs, and can only be restored by the use of such a blood-forming preparation as Dr. A. W. Chase's Nerve Pills.

On account of the way in which Dr. A. W. Chase's Nerve Pills enrich the blood and build up the system, they are beyond doubt the most effective treatment for anemia. I am far from wasting time in that which is compounded. Note your increase in weight while using it.

Bad Breath.

A well-known physician, who undoubtedly knows, declares that bad breath has broken off more matches than bad temper.

There are ardent lovers who must sometimes with their sweethearts presented sweeter mouths to be kissed. Good teeth cannot prevent bad breath when the stomach is disordered.

The best cure for bad breath is a cleansing of the body by use of

Lane's Family Medicine

the tonic laxative.

This is a herb medicine, sold in 25c and 50c packages by druggists and it is saving more doctor's bills than any other medicine has ever saved.

It cures headache, backache, indigestion, constipation and skin diseases.

It's a pleasure to tell our readers about a cough cure like Dr. Shoop's.

For years Dr. Shoop has fought against the use of opium, chloroform or other unsafe ingredients commonly found in cough remedies.

Dr. Shoop, it seems, has welcomed the pure food and drug law recently enacted, for he has worked along similar lines many years.

For nearly 20 years Dr. Shoop's Cough Cure containers have had a warning printed on them against opium and other narcotic poisons.

He has thus made it possible for mothers to protect their children by simply insisting on having Dr. Shoop's Cough Cure. Sold by all dealers.

The pure whiskey law will have a tendency to reduce the demand for California's record crop of prunes.

For any disease of the skin we can recommend Chamberlain's Salve. It relieves the itching and burning sensation instantly and soon effects a cure.

This salve is also invaluable for sore nipples. Sold by H. D. McCulloch Co.

That \$750,000 gift of Mr. Carnegie to the Bureau of American Republics, ought to protect the library ridden cities from the strenuous little millionaire for a few weeks at least.

A Jamaican Lady Speaks Highly of Chamberlain's Cough Remedy.

Mrs. Michael Hart, wife of the superintendent of Cart Service at Kingston, Jamaica, West Indies Islands, says that she has for some years used Chamberlain's Cough Remedy for coughs, croup and whooping cough and has found it very beneficial.

She has implicit confidence in it and would not be without a bottle of it in her home.

Moved by Supervisor Leklem and seconded that T. J. Pitt, Supervisor of Assessments, be retained to meet with Board of Equalization for such time as they may need his services. Motion carried.

Moved by Supervisor Playman and seconded that Board adjourn until tomorrow morning at 9 o'clock. Carried.

(To be Continued)

To stop a cold with "Preventics" is safer than to let it run and cure it afterwards. Taken at the "sneeze stage" Preventics will head off all colds and grippe, and perhaps save you from pneumonia or bronchitis. Preventics are little toothsome candy cold cure tablets selling in 5 cent and 25 cent boxes. If you are chilly, if you begin to sneeze, try Preventics. They will surely check the cold, and please you. Sold by all dealers.

They say the Shah of Persia has a chance to leave 800 widows. And yet he keeps on living.

If you are constipated, dull, or bilious, or have a sallow lifeless complexion, try Lax-ets once to see what they will do for you. Lax-ets are little toothsome candy tablets—nice to eat, nice in effect. No griping, no pain. Just a gentle laxative effect that is pleasingly desirable. Handy for the vest pocket or purse. Lax-ets meet every desire. Lax-ets come to you in beautiful lithographed metal boxes at 5 cents and 25 cents. Sold by all dealers.

The time is rapidly approaching when most people will treat their New Year's resolutions.

The Grip.

"Before we can sympathize with others, we must have suffered ourselves." No one can realize the suffering attendant upon an attack of the grip, unless he has had the actual experience. There is probably no disease that causes so much physical and mental agony, or which so successfully defies medical aid. All danger from the grip, however, may be avoided by the prompt use of Chamberlain's Cough Remedy. Among the tens of thousands who have used this remedy, not one case has ever been reported that has resulted in pneumonia or that has not recovered. For sale by H. D. McCulloch Co.

As Count Witte says, Japan may be too poor to fight, but there is no suspicion anywhere that when she does she is a poor fighter.

DOWNWARD COURSE

Fast Being Realized by Stevens Point People.

A little backache at first.

Daily increasing till the back is lame and weak.

Urinary disorders quickly follow.

Diabetes and finally Bright's disease.

This is the downward course of kidney ills.

Don't take this course. Follow the advice of a Stevens Point citizen.

W. H. Allen, contractor and builder of 438 Elk street, Stevens Point, Wis., says: "I have used Doan's Kidney Pills in my family with very beneficial results. For years my wife complained of weakness and pain through her back, and dull, heavy, bearing-down pains across the loins. Nothing she did seemed to afford any permanent relief. The pains were particularly severe at night, causing restlessness and finally running down her general health. After trying a number of remedies, Doan's Kidney Pills were brought to our notice and I got a box at the Taylor Bros. drug store. She used them and was entirely cured. Since that time she has not had any return of the trouble. The cure was a lasting one."

For sale by all dealers. Price 50 cts. Mailed by Foster-McLaren Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—DOAN'S—and take no other.

Piles

In order to prove to you that Dr. A. W. Chase's Ointment is a certain and absolute cure for any form of itching, bleeding, or protruding piles, the manufacturers guarantee a cure. You can use it and if not cured get your money back. Mr. Casper Walton, laborer, Michigan City, Ind., says: "I work hard and lift a great deal. The strain brought on an attack of piles. They itched and they protruded and bled. Nothing helped them until I used Dr. A. W. Chase's Ointment. That cured them." 50c. a box at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

CONGRESSIONAL NEWS.

The house of representatives, in committee of the whole, refused to strike out of the army appropriation bill an item of \$1,000,000 to pay the expenses of state militia participating in encampments of the regular army. The subcommittee of the senate committee on Indian affairs agreed to report an amendment to the Indian appropriation bill striking out the appropriation for the Indian school at Carlisle, Pa. A resolution providing for a sweeping investigation of the conduct of United States Senator J. W. Bailey, of Texas, was introduced in the house of representatives of the state legislature, signed by 28 members. Senators Foraker and Lodge debated the president's discharge of colored troops, and Senator Gearin criticized his attitude toward the Japanese in America. A personal encounter between Congressmen Gaines, of Tennessee, and Mahon, of Pennsylvania, was prevented by difficulty by the other members of the house. The senate passed a bill providing that railway employees who handle trains shall not work more than 16 consecutive hours, such period to be followed by ten hours off duty. Senator Hopkins, of Illinois spoke in defense of Reed Smoot's right to occupy his seat in the senate.

MISCELLANEOUS.

The steamship Ponce, long overdue at New York, was towed to the Bermudas with a broken shaft, by a German steamer. All on board were well. John Smith, one of the men under indictment for the murder of Dr. B. D. Cox in Kentucky has made a confession in which he said Hargis and Calahan induced him and two others to kill Cox. President Harahan, of the Illinois Central replied to Gov. Deneen's special message, saying the charges against the road were unjust and the governor ordered suit begun against the railway at once. Walter S. Bogle, Jr., son of the millionaire president of the Crescent Coal company, Chicago, was killed by a pistol shot in a room at his home. Members of the family declare the death was accidental. A fire which started in the tobacco warehouse of S. R. Moss & Co., at Lancaster, Pa., from the falling of an electric arc light spread to adjoining property and caused a loss estimated at \$1,000,000. Congressman Charles Curtis was nominated for United States senator to succeed Senator Benson by the caucus of Republican legislators. The action of the caucus is equivalent to election. Two men were killed and more than a score of persons injured, including several women, by an explosion of acetylene gas at a card party in Woodman's hall in Wilmington, Ill. Elbert W. Gibson, principal of the schools at Riverdale, Mich., was drowned while trying to save 14-year-old Harry Valance, who had broken through the ice while skating. The North German Fire Insurance company, according to a decision rendered by the Hamburg court in a test case, must pay the losses incurred as a result of the San Francisco earthquake of last year. The upper house of the Tennessee legislature adopted a resolution endorsing President Roosevelt's stand on the discharge of the negro soldiers at Brownsville, Tex. The house had adopted the same resolution. For the first time since August there is no case of yellow fever in Cuba. The last person to suffer from the disease is dead at Sagua La Grande. President Roosevelt received a letter from the French ambassador at Washington, stating that the decoration of the Legion of Honor had been conferred upon Prof. Brander Matthews, of Columbia university. Fourteen Texas senators signed a resolution demanding an investigation of Senator Bailey and Attorney General Davidson. The mills at Minneapolis, were forced to close for lack of cars. The United States circuit court of appeals at Cincinnati upheld the constitutionality of the Kentucky law empowering the governor to appoint a racing board to control horse racing in the state.

The constitutional convention of Oklahoma passed an ordinance setting the date of the election for the ratification or the rejection of the constitution and the election of an entire corps of state officers as Tuesday, September 3, next. Hundreds of persons perished in a tidal wave that devastated some of the Dutch East Indian islands. The assassin of Lieut. Gen. Pavloff, military procurator of St. Petersburg, was executed, dying with a cheer for the revolution. Sixteen girls and four youths from 15 to 18 years old were burned to death at Celsopolheim, Germany, in a factory fire started by the explosion of celluloid scraps. Mabel Calvert, 16 years old, was caught in the machinery of the ventilating plant in a Chicago school and instantly killed. Pope Pius issued an encyclical addressed to the clergy of France urging further resistance to the separation law, characterizing it as an effort on the part of the government to destroy all religion. Fred Gilman, a former banker of Goodland, Ind., was arrested in Bloomington, Ill. Gilman is wanted at Goodland, where 13 indictments await him for receiving deposits knowing his institution to be insolvent. George C. Wapp, supposed to be insane, killed Mrs. Frederick Freund, his mother-in-law, in Milwaukee, by cutting off her head with a razor. Archbishop Montgomery died at San Francisco. He was operated on for appendicitis a few days ago and was believed to be recovering when a relapse occurred. Representatives of 27 of the largest traction interests operating between Maine and Missouri met at Cleveland and began the organization of four big insurance companies. The two licorice paste companies on trial in New York as guilty of a tobacco trust were found guilty, but the individual defendants were acquitted. The Honduran revolutionists were defeated at El Carrigal by Gen. Carcalo, who captured their positions and compelled them to flee to Nicaraguan territory. The residents of Berwick, Pa., were greatly alarmed over the outbreak of some 40 cases of typhoid fever, which was believed to be due to the use of water taken from the Susquehanna river. The crater on the summit of the volcano of Mauna Loa, Hawaii, broke out and the eruption forms a magnificent spectacle, which is visible for hundreds of miles at sea. Albert Lindsay was frightened to death and two men were severely burned by an explosion of molten metal in the finishing plant at Baldwin's locomotive works, Philadelphia. The fact that President Roosevelt has accepted membership in the Simplified Spelling Board, whose list of simplified spellings he adopted last summer, was announced. Nearly 100 terrorists were arrested in Warsaw by the police, who seized also many rifles and revolvers. Five terrorists were tried by drum-head court-martial and condemned to death. San Francisco is on the verge of a great coal famine, having only a seven days' supply of fuel on hand. Col. Patko Andrieff, chief of gendarmes at Lodz, Poland, was slain by an assassin who escaped. Congressman William Alden Smith, of Grand Rapids, Mich., was nominated to succeed United States Senator R. A. Alger. This is equivalent to an election. The interstate commerce commission inquiry into the Harriman system may result in the taking of steps by Attorney General Bonaparte to dissolve the combination of railroads. The navy department is planning to equip warships with bells for submarine warnings to other ships in thick weather on or after nightfall. Rear Admiral Charles D. Sigsbee will be retired January 16 on account of age. George W. Burnham, known as the father of spiritualism in Connecticut, died at Willimantic of rheumatism of the heart, aged 89 years. Cuba's vast sugar crop is reported imperiled because big bankers refuse to make loans to planters while the island is in such a chaotic state politically. Earthquake shocks were felt in parts of the United States, Russia, Sweden and Norway. Runaway freight cars wrecked the Union hotel at Janesville, Wis. The miners at Goldfield, Nev., voted to end their strike by accepting the operators' schedule. Bob Lankswert, a well known ball player, committed suicide in Louisville, Ky. Ed Smith, manager of the washing house in the nitroglycerin plant at the Vigor Powder works at Point Isabel, near Berkeley, Cal., was killed by an explosion of 3,000 pounds of nitroglycerin. Suits to dissolve the alleged Gonid merker of railways and other concerns were filed by Attorney General Hadley, of Missouri. Gov. A. B. Cummins ordered immediate prosecution of as many as possible of the mob that lynched a murderer at Charles City, Ia.

James Cullen, who had murdered his wife and stepson, was taken from jail at Charles City, Ia., and hanged by a mob that included four ministers and several women. Judge Carnes, who was to try a feud case in Jackson, Ky., asked the governor for a guard as the town was full of armed men. The court of appeals ordered the trial stopped. Lieut. Gen. Vladimir Pavloff, advocate general of the Russian army, was killed by an assassin at St. Petersburg. Twenty-seven men were enveloped in molten metal and killed and seven others fatally hurt by the explosion of a steel furnace in Pittsburgh, Pa. David Overmyer, probably the most prominent Democratic politician in Kansas, died at his home in Topeka, aged 60 years. Two masked bandits held up an interurban electric car near Brooklyn, Ill., and after firing several shots, robbed the conductor of \$40 and made their escape. Exposures of the methods of the transcontinental railroads of America in distributing the nation's traffic were made in Chicago when J. C. Stubbs, traffic director of the great Harriman railway properties, became a witness before the interstate commerce commission. Pinning to his clothes a note saying that "life is a rarebit dream," Albert A. Chittenden, an artist, committed suicide by inhaling gas in his apartment in New York. Mrs. Maria Novack, aged 70 years, wife of Thomas Novack, living near Holding, Minn., was found dead in the woods about two miles from her home. Young Corbett was whipped in a six-round bout at Philadelphia by Tommy Murphy. A charter was granted at Atlanta, Ga., to the Savannah, Augusta & Northern Railroad company to construct a line from Savannah to Rossville, Ga. Archbishop George Montgomery is dangerously ill at the Adler sanitarium in San Francisco. The Japanese budget for the next fiscal year, which the government expects to present soon, provides an expenditure of 611,000,000 yen (about \$305,000,000). Plans for a new 20-story hotel to occupy the entire block in Broadway from Thirty-second to Thirty-third street, New York, are being prepared. John H. Graham, founder of the Graham & Morton Transportation company, which runs one of the largest lines of boats plying between Chicago and the east shore of Lake Michigan, died at St. Joseph, Mich. Miss Beatrice Kobbe, niece of Maj. Gen. W. A. Kobbe, U. S. A., and Raymond D. Little, the well-known tennis player, were married in All Angels' Protestant Episcopal church, New York. Gov. Folk, of Missouri, granted a respite until January 17 to William Spaugh, under sentence to be executed for the murder of Sheriff Polk. High water has caused thousands of dollars worth of damage around Duquoin, Ill. Railroad tracks are inundated for miles and homes completely submerged. Eighteen Chinamen who had been smuggled across the river were caught by immigration officers at El Paso, Tex., as they were loading their belongings into a Santa Fe box car. Citizens of North Yakima raided a coal train and carried off 20 carloads of fuel. Reckon, one of the greatest race mares and dams in America, died at the Dixiana stud, Lexington, Ky. Operator W. M. Dutrow and seven trainmen were held by the coroner's jury for the wreck on the Baltimore & Ohio at Terra Cotta. Republican legislators of South Dakota endorsed Robert J. Gamble to succeed himself as United States senator. The Santa Fe railway was indicted twice by a federal grand jury at Los Angeles, Cal., for giving rebates on lime shipments. Muzaffar-Ed-Din, shah of Persia, died at Teheran after a long illness. Fire gutted a great portion of the large plant of the Michigan Store Works in Detroit, causing a loss estimated at \$750,000, while the entire plant was insured for but \$380,000. One spectator was killed and several others were injured. The Republican members of the Minnesota legislature in caucus nominated United States Senator Knute Nelson to succeed himself. This is equivalent to election. The election of Congressman Joseph M. Dixon to the United States senate to succeed Senator Clark, was assured at Helena, Mont., a caucus of the Republican members of the legislature giving him 49 votes to 22 for former Senator Lee Mantle. After running wild for miles at 75 miles an hour, the Northwestern fast mail was saved from destruction by Engineer Shull, who, scalded nearly to death, made his way to the express car and pulled the air brakes rope. At a meeting of the London Aero club it was decided to send a challenge for the James Gordon Bennett aeronautic race to take place at St. Louis in October. Three competitors will be sent.

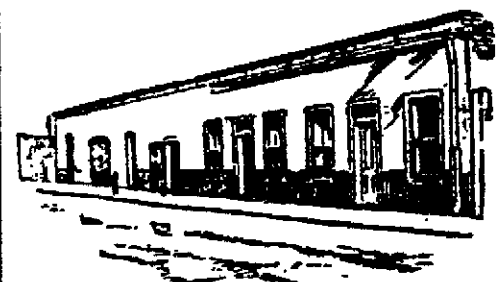

OLDEST PRISON IN AMERICA

SITUATED AT SANTA FE, N. M., AND WILL BE TORN DOWN.

its History Is Lost in the Dim Past — Walls of Sun-Dried Brick Four Feet Thick—The Adobe Roof.

Kansas City, Mo.—The old Spanish prison in Santa Fe, N. M., one of the most ancient and historic buildings in the City of the Holy Faith, with the exception of San Miguel church, is to be razed and in its place will be erected a modern jail building of vitrified brick, steel cages and steam heat. The county commissioners have let the contract for tearing down and disposing of the old prison, and work has already begun upon the new structure. The half dozen prisoners now in the jail will be guarded elsewhere until the new structure is completed. It is impossible to secure data on the old prison. It has stood as long as the oldest inhabitant can remember and looked nearly 200 years ago as it does to-day. The building has been remodeled a dozen times, but the cells and massive doors have never been changed. The old prison is of adobe entirely. Its walls are of sun-dried brick four feet in thickness. The roof, which is of adobe, laid over massive pine logs roughly hewn into shape with an ax, is also several feet thick. The cells are dirty, dark and unfurnished except for piles of straw covered with old blankets, or rickety cots upon which prisoners are expected to sleep. Earth, hardened and worn by the tread of many feet, is the only floor. In the walls of the cells are still fastened the great, hand-wrought chains and cuffs with which prisoners at one time were made fast. The cell doors are of iron beaten and welded into bars by hand. They have resisted mob violence in times gone by.

The old prison was originally constructed about a placita or little yard, the buildings forming three sides and a high adobe wall the fourth. In recent years, however, the buildings on one side of the placita crumbled into ruins and the remainder on the opposite side were used as stables for the sheriff's horses, leaving only the main cellhouse as a prison. In the center of the placita back of the prison was an old scaffold, which rattled and swayed in the wind. Upon it many an early day "bad man" paid for his crimes with his life. The method of

The Ancient Spanish Prison at Santa Fe, N. M.

execution was rough. After the knot was placed about the neck, the executioner kicked a prop from beneath the trap on which the prisoner stood.

The books of the prison have been lost, only a few in recent years having been preserved. They are written principally in Spanish and give little information.

The agitation for a new prison began about six months ago when a portion of the roof over one cell fell in. The following night a prisoner made his escape, leaving a note in which he said that he did not want to run away, believing that he would be acquitted when brought to trial, but that he deemed it foolhardy to remain longer in such a death trap. The publication of the letter called the attention of the people to the old prison. They had long forgotten it, considering it only one of the many relics of other days.

ESTABLISHES A NEW CULT.

Woman Claims to Cure Diseases With Color Schemes and Goats.

DR. LETITIA KUCHINSKI. (Leader of New Cult Established in Colorado.)

Hayward, Cal.—"Every thought and emotion has form and color. "Anger is brown. "Yellow is the color which will aid the student in subduing his angry emotions. "Pure love is a beautiful pink,

while green is riches. And so you see all the cardinal colors represent something.

"One quart of goat's milk is equal to two of cow's milk, and so the former is the fundamental of our diet system.

"The temple of health will be a great reality some day." Thus saith Dr. Letitia Kuchinski, the high priestess of the cult.

Upon the side of the bleak hill a few miles outside of the town and in immediate proximity to a number of cemeteries, Dr. Kuchinski and her husband are establishing a temple of health.

They contemplate putting \$100,000 into the venture.

As yet they have only spent a few hundred. As the place does not now in any way resemble a temple, Mrs. Kuchinski is content to call the place the Hillside Health Dens.

A long, rambling shack, within an acre of cleared ground, on which graze a herd of imported Hungarian goats, is all that exists so far of the Kuchinski sanatorium.

Mrs. Kuchinski is peculiar. She does not believe any more in materia medica. She believes in color and goats. The former is for the cure of all diseases. The latter aid in proper living.

JAP BOY WILL TEST SUIT.

Keikichi Aoki Selected as Subject in Frisco School Dispute.

San Francisco.—In these days of internal and international complications over the Japanese educational problem in California, the most prominent figure is Keikichi Aoki, the ten-year-old son of Mitsuharu Aoki, who has been selected by Japan and the United States to be the subject of the test case in the courts.

The boy's father refused to send him to the oriental school when the segregation rule of the board of education went into effect. He was selected as an example by Consul Oyeno and the United States district attorney, who will present the case to the court for the United States.

So the whole question of such great importance must revolve around young Aoki until the highest court has passed on it. By that time the little Japanese boy will have helped make several chapters in modern history.

The board of education has no objection to the selection of Aoki as the subject for the court action, and from now on the case will make rapid progress in court unless some unforeseen complications arise.

LABOR CHEAP IN BELGIUM.

Thirteen Hours of Hard Work Poorly Remunerated.

The hours of labor in Belgium are very long, says Daily Consular and Trade Reports. The laborer begins work at six a. m., and ceases work at seven p. m., with the usual breaks for meals. He is paid on the average of seven cents to nine cents an hour for ten hours, and 25 per cent. more for two additional hours, making his daily wage 84 cents to \$1.08 for 12 hours. Children begin their life work as early as 12 years of age, though the law compassionately states that no child under 16 years of age shall be kept at work for more than 12 hours a day. A Belgian statistician estimates the average earnings of an artisan, child labor being included in his calculation, at about \$169 a year. Numerous factories have been established there by British firms owing to the very low rate at which labor can be secured.

PRESIDENT SENDS A SPECIAL MESSAGE TO CONGRESS.

Asks for Appropriation of \$2,000,000 to Stop the Great Overflow That Threatens Destruction in California.

Washington.—President Roosevelt has sent to congress a message urging some action toward remedying the Salton sea situation caused by the break in the Colorado river four miles below the international boundary line in Mexico, which threatens property interests in the Imperial valley of California. The message contains a long review of the situation. It says prompt action must be taken, otherwise conditions will become so extreme as to be impracticable of remedy.

Probably with an expenditure of \$2,000,000, the president says, the river can be restored to its former channel and held there indefinitely. He points out that at present there appears only one agent equal to controlling the river, the Southern Pacific company. The question of what sum, if any, should be paid the railroad company for work done since the break of November 4 is one for future consideration.

WORK FOR PEACE.

Move to Organize Branch of Civic Federation in Chicago.

Chicago.—Labor and capital, the workers of Chicago and their employers, met Saturday night on common ground and equality. The project of settling their difficulties by conciliation brought them together at the residence of Mrs. Potter Palmer, 100 Lake Shore drive.

It was a conference under the auspices of the National Civic Federation and was attended by more than 600 persons. Perhaps half of them were trade unionists and probably every labor organization in the city was represented. The object of the meeting was the organization of a branch of the Civic Federation for Chicago and the central west.

As a result of the conference a meeting will be held in Chicago this week at which a western branch of the National federation will be organized.

Chicago, according to the plan, will become the central point from which the efforts of the National Civic Federation will be exerted throughout the central and middle western states, as they have been heretofore in the eastern and New England states.

BIDS FOR PANAMA CANAL.

Nashville and New York Men offer Figures Lower Than Anticipated.

Washington.—Proposals opened by the canal commission for the entire construction of the Panama canal were as low as had been expected by experts in construction work. Several members of the commission believed seven per cent. of the estimated cost of the construction would be a fair remuneration under the contract prepared by the commission.

The lowest proposal, that of William J. Oliver of Knoxville, Tenn., and Anson M. Bangs of New York, who offered to do the work for 6.75 per cent. of the estimated cost, falls even lower than had been hoped for. Granting that the estimate of \$140,000,000 for the construction of the canal is accurate, the remuneration of the Oliver-Bangs combination would be \$9,450,000.

Much discussion was caused by the great difference in the only four bids received, as they ranged from 6.75 per cent. to 28 per cent.

DAKOTA COAL FAMINE.

Great Northern President Urged to Relieve It.

Washington.—The interstate commerce commission again urged President James J. Hill of the Great Northern railroad to further efforts to relieve the fuel famine in North Dakota. Commissioner Harlan, moved by a letter from Senator Hansbrough declaring conditions were growing worse and that starvation might be added to the sufferings from cold, wired to President Hill that the latter was expected to do all in his power, "regardless of expense or other sacrifice."

Officer Leads Mob.

Chelsea, Mich.—Armed with a heavy sledgehammer, State Treasurer Glazier of Michigan led 200 husky employees of his stove works here in a raid on the slot machines in the saloons and poolrooms of the town. A couple of hours later every gambling device in town was in a pile of blazing refuse on the main corners of the town.

IN FORTY-EIGHT HOURS PE-RU-NA CURED HIM.

Cold Affected Head and Throat— Attack was Severe.

Chas. W. Bowman, 1st Lieut. and Adj. 4th M. S. M. Cav. Vols., writes from Lanham, Md., as follows:

"Through somewhat adverse to patient medicines, and still more adverse to becoming a professional affidavit man, it seems only a plain duty in the present instance to add my experience to the columns already written concerning the curative powers of Peruena.

"I have been particularly benefited by its use for colds in the head and throat. I have been able to fully cure myself of a most severe attack in forty-eight hours by its use according to directions. I use it as a preventive whenever threatened with an attack.

"Members of my family also use it for like ailments. We are recommending it to our friends."

Fine Feat of Engineering.

The feat of moving a lighthouse without taking it apart or dismantling it in any way has recently been accomplished at Ashtabula. The range light, weighing 65 tons and standing 65 feet high, was placed on a lighter and towed along the river a distance of 750 feet, and then successfully placed on a new site. It was raised by the use of jacks and moved on rollers to and from the lighter. Guy ropes held it in position while moving.

SCALY ERUPTION ON BODY.

Doctors and Remedies Fruitless—Suffered 10 Years—Completely Cured by Cuticura.

"When I was about nine years old small sores appeared on each of my lower limbs. I scratched them with a brass pin and shortly afterwards both of those limbs became so sore that I could scarcely walk. When I had been suffering for about a month the sores began to heal, but small scaly eruptions appeared where the sores had been. From that time onward I was troubled by such severe itching that, until I became accustomed to it, I would scratch the sores until the blood began to flow. This would stop the itching for a few days, but scaly places would appear again and the itching would accompany them. After I suffered about ten years I made a renewed effort to effect a cure. The eruptions by this time had appeared on every part of my body except my face and hands. The best doctors in my native county advised me to use arsenic in small doses and a salve. I then used to bathe the sores in a mixture which gave almost intolerable pain. In addition I used other remedies, such as iodine, sulphur, zinc salve, —s Salve, — Ointment, and in fact I was continually giving some remedy a fair trial, never using less than one or two boxes or bottles. All this was fruitless. Finally my hair began to fall out and I was rapidly becoming bald. I used —s —s, but it did no good. A few months after, having used almost everything else, I thought I would try Cuticura Ointment, having previously used Cuticura Soap and being pleased with it. After using three boxes I was completely cured, and my hair was restored, after fourteen years of suffering and an expenditure of at least \$50 or \$60 in vainly endeavoring to find a cure. I shall be glad to write to any one who may be interested in my cure. B. Hiram Mattingly, Vermillion, S. Dak., Aug. 18, 1906."

NEWS OF WISCONSIN

HAPPENINGS OF INTEREST IN THE VARIOUS TOWNS.

SEARCH FOR IRON ORE

Excited Prospectors Busy Around Weyerhaeuser—One Extremely Valuable Find Has Already Been Reported.

Chippewa Falls.—The people of Weyerhaeuser are considerably excited on account of the finding of iron ore near there in what is believed paying quantities. Since the first strike made a few months ago there has been a continual hunt for iron in various parts of the town and numerous options on lands have been taken by prospectors. One of the prospectors has been especially fortunate, having found a solid vein of iron ore. He has purchased mining machinery and will be ready to develop his property next spring.

There has also been some excitement concerning the report of finding iron ore in the vicinity of Cornell and Estella. A state university professor has been upon the scene to make investigation and has taken samples of the ore with him to Madison.

Prospecting is going on at Leavitt creek, near Breederville, and fine specimens of copper ore have been found. Some enthusiasts say that there is copper and iron ore in unlimited quantities in that vicinity.

RESCUES FAIL; SKATERS DROWN

Boy Hero and Girl Heroines Lose Lives in Vain Attempts to Save.

Burlington.—While skating here, Willie Garloff, eight years old, went through the ice. His ten-year-old sister Lydia immediately went to his rescue, and while the two were struggling in the water William Scheumann, 19 years old, plunged in and tried to save them. Scheumann tried hard to lift the two children out and in the struggle which ensued all three were drowned before assistance could reach them. Mrs. Garloff, the mother of the two children, is not expected to survive the shock.

Blind People Need Aid.

Milwaukee.—A declaration of principles embracing the lines along which it will work was adopted at a meeting of the Wisconsin Aid Society for the Blind. Dr. Evelyn Hoehe was appointed to solicit for the next two weeks among Milwaukee business men for their support in the efforts that will be made to get the state legislature to take action for helping the blind during the present session.

Know Flower at Manitowoc.

Manitowoc.—Manitowoc people have reason to remember "Dr." H. C. Flower, alias Prof. Oxford, alias C. Delany, etc., whose operations are said to have netted him more than \$10,000,000, and who has been captured at Philadelphia after a chase over three continents. Flower secured more than \$30,000 from local investors a number of years ago when he foisted a lot of mining stock on local men.

\$100,000 Estate to Charity.

Milwaukee.—Telegrams received here announce that Rev. Father Koehne of Cass county, Indiana, has left his large estate to the Sisters of Notre Dame, who have their chief convent in Milwaukee. Other members of Catholic sisterhoods in Milwaukee also will receive substantial bequests. The value of the estate, which is not definitely known, is said to be \$100,000.

THE GRAND TRUNK PACIFIC RAILROAD AND WESTERN CANADA.

Will Open Up Immense Area of Free Homestead Lands.

The railway facilities of Western Canada have been taxed to the utmost in recent years to transfer the surplus grain crop to the eastern markets and the seaboard. The large influx of settlers and the additional area put under crop have added largely to the grain product, and notwithstanding the increased railway facilities that have been placed at the disposal of the public, the question of transportation has proved to be a serious one.

It will, therefore, be good news to everyone interested in Western Canada to know that an authoritative statement has been given out by C. M. Hays, president of the Grand Trunk Pacific Railway, that that railway will do its share towards moving the crop of 1907 from Alberta, Saskatchewan and Manitoba to tide water, and thus assist in removing a serious obstacle which has faced the settlers during recent years. Mr. Hays, who has just completed a trip from Portage la Prairie to Edmonton in a prairie schooner, a distance of 735 miles, which was covered in eighteen days, is enthusiastic about the country.

This will be gratifying to settlers in the Canadian West, even if Mr. Hays declines to be bound to a time limit with the exactitude of a stop-watch. The Grand Trunk Pacific road will be in a position to take part in the transportation of the crop of 1907, and that will be satisfactory to the settlers in that country when the harvest is garnered.

The wheat crop of 1906 in Western Canada was about 90,000,000 bushels, and, with the increased acreage which is confidently expected to be put under crop next year, it is safely calculated that fully 125,000,000 bushels will be harvested in 1907. The necessity for increased transportation facilities are, therefore, apparent, and the statement made by Mr. Hays will bring encouragement to the farmers of the Canadian West, new and old. The opening up of additional thousands of free homesteads is thus assured by the agent of the Canadian Government, whose address appears elsewhere.

THE FIRST TWINGE

Of Rheumatism Calls for Dr. Williams' Pink Pills If You Would Be Easily Cured.

Mr. Frank Little, a well known citizen of Portland, Iowa Co., Mich., was cured of a severe case of rheumatism by Dr. Williams' Pink Pills. In speaking about it recently, he said: "My body was run down and in no condition to withstand disease and about five years ago I began to feel rheumatic pains in my arms and across my back. My arms and legs grew numb and the rheumatism seemed to settle in every joint so that I could hardly move, while my arms were useless at times. I was unable to sleep or rest well and my heart pained me so terribly I could hardly stand it. My stomach became sour and bloated after eating and this grew so bad that I had inflammation of the stomach. I was extremely nervous and could not bear the least noise or excitement. One whole side of my body became paralyzed.

"As I said before, I had been suffering about five years and seemed to be able to get no relief from my doctors, when a friend here in Portland told me how Dr. Williams' Pink Pills had cured him of neuralgia in the face, even after the pain had drawn it to one side. I decided to try the pills and began to see some improvement soon after using them. This encouraged me to keep on until I was entirely cured. I have never had a return of the rheumatism or of the paralysis.

The pills are for sale by all druggists or sent, postpaid, on receipt of price, 50 cents per box, six boxes \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

Origin of Starch.

The art of starching was not introduced into England until the ingenuity of Dutch women in starching ruffs induced Queen Elizabeth to turn to them when she took to wearing cambric and linen cuffs. In 1564 Mistress Dingheyn von den Plasse, the refugee daughter of a Flemish knight, came with her husband to London, according to an old writer, and set up an establishment for starching, where she not only plied her trade, but instructed English classes in her art.

Of Lydia E. Pinkham's Vegetable Compound, the Great Woman's Remedy for Woman's Ills.

LYDIA E. PINKHAM

No other medicine for Woman's ills in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female illnesses or such hosts of grateful friends as has Lydia E. Pinkham's Vegetable Compound. For more than 30 years it has been curing all forms of Female Complaints, Inflammation and Ulceration, and consequent Spinal Weakness. It has cured more cases of Backache and Local Weakness than any other remedy. It dissolves and expels tumors in an early stage of development. Irregularities and periodical pains, Weakness of the Stomach, Indigestion, Bloating, Nervous Prostration, Headache, General Debility quickly yield to it; also deranged organs, causing pain, dragging sensations and backache. Under all circumstances it acts in harmony with the female system. It removes that wearing feeling, extreme lassitude, "don't care" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, dizziness, faintness, sleeplessness, flatulency, melancholy or the "blues". These are indications of Female Weakness or some derangement of the organs, which this medicine cures as well as Chronic Kidney Complaints and Backache, of either sex. Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Sold by Druggists everywhere. Refuse all substitutes.
